OBJECTIVE

B.Tech Computer Science and Engineering student with strong foundations in Java, Python, Web Development, and Data Structures & Algorithms. Experienced in developing AI-driven and web-based applications, with a passion for software engineering, problem-solving, and building innovative technology solutions.

EDUCATION

Degree	Institution	Year	Score
B-Tech (CSE)	SRMCEM	2027	7.4 CGPA
Class XII	SHHSS	2023	80%
Class X	SHHSS	2021	81%

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript

Web Technologies: HTML, CSS, React.js, Node.js, REST APIs, JSON

Databases: MySQL, MongoDB

Soft Skills: Attentive, Communication Skill, Team Player, Project Management, Adaptability, Leadership

Platforms: Git, GitHub, VS Code

PROJECTS

Name - Emotion AI

Description: Developed an AI-powered interactive assistant capable of analysing facial expressions and hand gestures to generate intelligent verbal responses. Designed to enhance human-computer interaction through real-time emotion recognition.

Role: Project Ideator & UI Developer – Conceived the project architecture, designed the user interface, and collaborated on feature planning to deliver an intuitive user experience.

Name - YATRIK – Smart Travel Planning Application

Description: Built a travel planning platform that helps users discover destinations and access transportation, hotel, and food booking services from a single interface. Focused on simplifying trip management and user convenience.

Role: UI Developer & Product Contributor – Engineered responsive user interfaces, implemented feature enhancements, and contributed to improving overall application functionality and user experience.

TRAINING & CERTIFICATIONS

Larsen & Toubro (L&T) – 36 Hours

- Acquired practical knowledge of mobile application development concepts and software development lifecycle.
- Worked on application design principles and development methodologies.

SRDT – 8 Days

- Strengthened understanding of Data Structures and Algorithms.
- Enhanced logical reasoning, quantitative aptitude, and problem-solving skills.

Additional Certifications

- Dynamic Programming Camp.
- Soft Skill training program.

ACHIEVEMENTS

- Selected at College Level for Smart India Hackathon (SIH) with the YATRIK Project.
- Secured 2nd Position in the International Robotics World Cup at TECHNOXIAN, Noida.
- Developed innovative software and AI-based projects focused on solving real-world challenges.
